Office in making the adjustment to the patent term, that Applicant should be refunded this fee if this request is granted.

#### STATEMENT OF FACTS INVOLVED

The correct patent term adjustment for this patent should be 253 days. The Issue Notification determined that the patent term adjustment is 153 days.

This application was filed on January 11, 2002, under the provision of § 371 of 35 U.S.C. based on U.S. Patent No. 6,446,302 filed June 13, 2000, and claimed the benefit of U.S. Serial No. 60/139,127, filed June 14, 1999. The U.S. Patent and Trademark Office held that the above-identified application complied with all 35 U.S.C. requirements as of February 5, 2002. See Exhibit A attached hereto.

A first Office Action in this application was not mailed until November 19, 2003, 253 days after 14 months following the filing date of this application. A copy of the first Office Action is attached hereto as Exhibit B. In the Office Action, the Examiner objected to the drawings on the basis that there was duplication of reference characters and included a reference sign not mentioned in the description of the claimed subject matter. In addition, the examiner objected to the specification, rejected all of the claims under 35 USC § 112, rejected some of the claims under 35 USC § 102 and rejected some of the claims under 35 USC § 103.

Applicant filed a timely Response to this Office Action on February 19, 2004, including the filing of amended drawings that obviated the examiner's objections to the drawings, amendments to the specification to comply with the examiner's objections and amendments to the claims to overcome the rejection of the claims. A copy of this Response is attached hereto as exhibit C.

On April 23, 2004, a Notice of Allowance, a Determination of Patent Term Adjustment, and a Notice of Allowability were mailed to Applicant. In the Notice of Allowability, the Examiner indicated that the drawings were accepted and that all of the claims were allowable. A copy of these documents is attached hereto as Exhibit D. In the Determination of Patent Term Adjustment, the Patent and Trademark Office correctly determined that the patent term adjustment is 253 days.

Applicant timely paid the issue fee on July 20, 2004. A copy of Applicant's Fees Transmittal which was filed on July 20, 2004, is attached hereto as Exhibit E. A copy of the Issue Fee Transmittal in an Auto Reply facsimile from the U.S. Patent and Trademark Office showing that the final fee was paid on July 20, 2004, is attached hereto as Exhibit F.

Applicant filed no further papers in the U.S. Patent and Trademark Office subsequent to the timely payment of the final issue fee. Applicant received an Issue Notification, mailed September 16, 2004, that the patent would issue on October 5, 2004, and that the patent term adjustment was 153 days. No explanation was given for the difference between the original determination and the later determination. A copy of this Issue Notification is attached hereto as Exhibit G. This determination with the Issue Notification was in error because any delay in issuance of this patent was not the fault of the Applicant and was the fault of the U.S. Patent and Trademark Office. Applicant prosecuted this application diligently and consistent within every tenant of the law and the rules. The facts show that the drawings were accepted by the examiner and all other formalities were in compliance with the U.S. Patent and Trademark Office requirements as of the Notice of Allowance April 23, 2004 mailing date.

In view of the foregoing, Applicant believes that he is entitled to the full 253 days of patent term adjustment and no deduction should be made because Applicant carried out his obligation to prosecute the application diligently within the law.
